Techno 15 is a line of ceiling curtain rails that are particularly functional and aesthetic. Recommended in places where there is no space above the window for a classic curtain rail. They can be used to divide the space and cover panoramic windows. The advantage of the **Techno 15** profile is the ease of bending in arches and angles, which means that it is easy to adjust to individual needs and design requirements. In **Techno 15** profiles, we can use the **wave system** and the variety of hooks and buckles allows you to mount all types of decorations, including flexes.

Techno 15s is a practical single-track curtain rail from the **Techno 15** line, made of a semicircular aluminum profile in **inox** and **white**. Recommended for direct ceiling mounting, thanks to which we eliminate the gap between the rail and the ceiling. It is possible to bend this profile only in the horizontal plane, point and in an arc, which makes it easier to move the fabric along the entire length of the curtain rod. We can use the **wave system** in this curtain rail.

Name	No. - Type	
	DIRECT HANDLE ASSEMBLY FOR CEILING Techno 15	
	Packed in 10 pcs.	456526 - black (plastic)
		656526 - white (plastic)
		856526 - inox (plastic)
	END-PIECE Techno 15	
	Packed in 10 pcs.	456110 - black (plastic)
		656110 - white (plastic)
		856110 - inox (plastic)
	PROFILE CONNECTOR Techno 15	
	L = 70 mm	855514 - inox (aluminium)
	PROFILE Techno 15	
	profile 15x20 mm	456524 - black (aluminium)
	L = 150, 175, 200, 250, 300*, 350*, 400*, 600* mm	656524 - white (aluminium)
		856524 - inox (aluminium)
	* - additional transport costs	
<p>ON REQUEST</p> 	PROFILE BENT Techno 15*	
	Minimum bend radius - 50 cm.	456524 - black (aluminium)
	Bends are individually priced, according to the provided template or H and C dimensions, if the arc is along the radius of the circle.	656524 - white (aluminium)
	Bending only horizontally.	856524 - inox (aluminium)
	Additional transport costs. Price of the profile with the service.	
<p>ON REQUEST</p> 	POINT BENDING OF THE PROFILE Techno 15*	
	Minimum bend radius - 13 cm.	
	Price of bending service. Profile price should be added to the service.	
	Bending only horizontally.	
	Additional transport costs. On one profile Techno 15 we make a maximum of 2 bends.	
	BUCKLE WITH SLIDE	
	Packed in 50 pcs.	51507 - white
	plastic	52507 - black

* - Details on request. No refunds or exchanges.

Name No. - Type

HOOK WITH SLIDE FOR RAIL

Packed in 50 pcs. 51507/Z - white

plastic 52507/Z - black

* For string systems, we recommend a closed hook with a slide and a snail hook.

This makes it easier to remove the fabric without disassembling the string system.

SNAIL HOOK

Packed in 50 pcs. 51508 - white
