ON REQUEST

QUADRO curtain rods

brass, stainless steel

ANGLE
CONNECT

We have adjustable angle and fixed joints 90° and 135° for QUADRO profiles we can make any angle on request.

DECORING

We can hang fabrics on decorings on QUADRO profiles. Details in section 19.

ON REQUEST

We can change the lengths of handles and rosettes, change the spacing between rods or rails, and adjust the angles of fixed joints. Do you want to know if we can solve the problem of a curtain rod in your window - call us or write to us.

inox

inox poler

antico

light antico
on request

satin

Brass and stainless steel curtain rods inspired by geometry. Square rod, matching handles, modern and simple shape, made of brass and stainless steel, ideal for modern interiors. A wide selection of end-pieces, handles, clips as well as silent-running wheels. Available as: **brass - antico**, **satin** and **stainless steel - inox**. Profiles used: 20 mm.

It is possible to order elements in **light antico** color (price +20%, does not apply to rails).

Forged

ON REQUEST

We can change the lengths of handles and rosettes, change the spacing between rods or rails, and adjust the angles of fixed joints. Do you want to know if we can solve the problem of a curtain rod in your window - call us or write to us.

ANGLE
CONNECT

We have adjustable angle and fixed joints 90° and 135° for **Forged** profiles we can make any angle on request.

black matt
on request

Forged steel curtain rods. The 12 mm bar is twisted and all painted in **black matt**. The handles and some end-pieces are decorative brass elements that can be painted in **black** color.
